A

Aberrations, chromosomal, in man (Rappoport and Kaplan), 415
Abnormalities, congenital, of urinary system. II (Bernstein and Meyer), 657
Acceleration, secular, of height and biologic maturation in children during past century (Symposium) (Cone), 736
Accessory diaphragm associated with neonatal respiratory distress (Hashida and Sherman), 529
Achalasia in children as cause of recurrent pulmonary disease (Schultz), 522
Acid, ascorbic, urinary excretion and blood plasma levels of, before and after test dose in children with severe thalassemia (Choremis, Economou-Mavrou, and Gregoriou), 361
  para-aminosalicylic, in child, hypersensitivity to (Kneebone), 90
  phosphatase in cerebrospinal fluid of children, activity of (Laron and Kowadlo), 56
Acidosis in premature infants, renal excretion of hydrogen ions, defense against (Rubin, Calcagno, and Ruben), 848
Acids, fatty, nonesterified, plasma, response of blood glucose, ketones and, to fasting and epinephrine injection (Kaye et al.), 836
Aciduria, phenylpyruvic, phenylketonuria (Blattner), 294
Acyanotic and cyanotic congenital malformation of heart, birth weight of infants with (Mehrizi and Drash), 715
Adenovirus vaccine, effectiveness of, in children with repeated acute respiratory illnesses (Kozinn, Wiener, and Burchall), 669
Adjustment, personal, in children, relationships between family situation, bronchial asthma, and (Dubo et al.), 402
Admission, hospital, procedure, designed as model for training residents in patient care (Cecil, Bridgers, and Harrington), 958
Adolescence, nutritional aspects of (Symposium) (Johnston), 741
  symposium on, introduction (Nelson), 734
  variations in personality growth during (Symposium) (Wolf), 743
Adolescents' health and illnesses, doctor and other factors in (Symposium) (Gallagher), 752
Adrenal cyst (Barron and Emanuel), 592
Adrenocortical and adrenocorticotropic function in children (Steiker et al.), 884
Adrenocorticotropic and adrenocortical function in children (Steiker et al.), 884
African child, histoplasmosis in (Lanceley, Lunn, and Wilson), 756
  East, child, subcutaneous phycomycosis in (Jelliffe et al.), 124
  neonate, jaundice in (editorial), 639
Airway resistance in newborn infant (Polgar), 915
Allergenicity of cow's milk proteins. IV (Crawford and Grogan), 347
Aminoaciduria, generalized, excretion of D- and L-methionine in children with (Piel and Harper), 861
Amphotericin B, cryptococcus meningitis in child successfully treated with (Emanuel et al.), 577
Androgen, synthetic, fluoxymesterone, dissociation of growth-stimulating and skeleton-maturing action of (Reilly and Gordan), 188
Anemia associated with protein deficiency (Shahidi, Diamond, and Shwachman), 533
  autohemolytic, in young infants (Laski et al.), 42
Anesthesia, induction with cyclopropane, cardiac rate and rhythm in infants during (Bachman and Freeman), 922
Anomalous inferior vena cava with azygos continuation (infrahepatic interruption of inferior vena cava) (Anderson, Adams, and Burke), 370
Antitoxins, tetanus, horse and human, persistence of, in human circulation (Smolens et al.), 899
Ascorbic acid before and after test dose in children with severe thalassemia, blood plasma levels and urinary excretion of (Choremis, Economou-Mavrou, and Gregoriou), 361
Asthma, bronchial, family situation, and personal adjustment in children, relationships between (Dubo et al.), 402
Atropine versus scopolamine as preanesthetic medication (Bachman and Freeman), 922
Auricular tachycardia, repetitive paroxysmal, with defective intraventricular conduction in 7-month-old infant (Vakil, Arora, and Joshi), 384
Autohemolytic anemia in young infants (Laski et al.), 42
Azygos continuation (infrahepatic interruption of inferior vena cava), anomalous inferior vena cava with (Anderson, Adams, and Burke), 370

B

Bacilli, gram-negative, rare (Mima polymorpha and Bacillus anitratum), severe infections in children due to (de Torregrosa and Ortiz), 35

*July, pp. 1-166; August, pp. 167-312, September, pp. 313-472; October, pp. 473-640; November, pp. 641-796; December, pp. 797-984.

Bacillus anitratum and Mima polymorpha, rare gram-negative bacilli, severe infection in children due to (de Torregrosa and Ortiz), 35
Bacterial and fungal chorioamnionitis, viral placentitis, early neonatal infection (Blanc), 473
Balance, magnesium, studies in marasmic kwashiorkor (Montgomery), 119
Bile duct stenosis, congenital (Hardy), 265
Bilirubin, serum, level, postnatal, erythrocyte survival in newborn infant, as measured by chromium^{51} and its relation to (Vest and Grieder), 194
Biologic maturation and secular acceleration of height in children during past century (Symposium) (Cone), 736
Birth weight of infants with cyanotic and acyanotic congenital malformations of heart (Mehrizi and Drash), 715
Blood glucose, ketones, and plasma nonesterified fatty acids, response to fasting and epinephrine injection (Kaye et al.), 836
plasma levels and urinary excretion of ascorbic acid before and after test dose in children with severe thalassemia (Choremis, Economou-Mavrou, and Gregoriou), 361
Books: Artificial hibernation (Veghélyi), 300
Biology of pyelonephritis (Quinn and Kass, editors), 464
Clinical disturbances of renal function (White), 629
Congenital malformations of the heart (Taussig), 629
Development of the infant and young child (normal and abnormal) (Illingworth), 464
Die odeme: physiology and therapy of salt and water retention (Fabre), 149
Dietary protein in health and disease (Allison and Fitzpatrick), 149
For young adults only; the doctor discusses your personal problems (Richardson), 149
Outline of chemical genetics, an (Strauss), 299
Rickettsial diseases, the (Zdrodovskii and Golinevich), 299
World Health Organization monograph series No. 40 (Buckle and Lebovivi, editors), 464
Bowel, small, hemangiomas of, in children (Copple and Kingsbury), 243
Brain, human, physiologic characteristics of growth of (Kennedy), 928
precocious puberty due to secreting chorionepithelioma (teratoma) of (Bruton, Martz, and Gerard), 719
Bronchial asthma, family situation, and personal adjustment in children, relationships between (Dubo et al.), 402

C

Cardiac rate and rhythm in infants during induction of anesthesia with cyclopropane (Bachman and Freeman), 922
Cardiovascular dynamics, related, and respiratory distress syndrome, electrocardiogram in (Keith et al.), 167
Caries, dental, in children, selenium content of eggs, milk, and water in relation to (Hadjimarkos and Bonhorst), 256
Carriers, heterozygous, in Wilson's disease (Blattner), 460
Cat-scratch fever, etiology of (Boyd and Craig), 313
Cebocephaly with endocrine dysgenesis (Haworth, Medovy, and Lewis), 726
Cell, red, mass determinations in infancy and childhood, with radioactive chromium (Sukarochana et al.), 903
Cells, lymph node, transferred, suppression, in adult and neonatal rabbits (Harris and Harris), 811
Cerebrospinal fluid of children, activity of acid phosphatase in (Laron and Kowadlo), 56
otorrhea and recurrent meningitis (Spitz et al.), 397
in paralytic poliomyelitis, evaluation of transaminase activity in (Abbassy and Aboulwafa), 60
Children of San Blas Indians of Panama (Jelliffe et al.), 271
Chloramphenicol administration, outbreak of neonatal deaths among term infants associated with (Lischner et al.), 21
Cholangiocholecystojejunostomy, intrahepatic (Roux Y). Congenital bile duct stenosis (Hardy), 265
Chorioamnionitis, bacterial and fungal, viral placentitis, early neonatal infection (Blanc), 473
Chorionepithelioma (teratoma), of brain, precocious puberty due to secreting (Bruton, Martz, and Gerard), 719
Chromatographic, paper, study, mellituria (Bickel), 641
Chromium, radioactive, red cell mass determinations in infancy and childhood with (Sukarochana et al.), 903
Chromium^{51} and its relation to postnatal serum bilirubin level, erythrocyte survival in newborn infants, as measured by (Vest and Grieder), 194
Chromosomal aberrations in man (Rappoport and Kaplan), 415
Chromosomes in chronic myeloid leukemia and in acute leukemia associated with Mongolism (Blattner), 145
Circulation, human, persistence of horse and human tetanus antitoxins in (Smolens et al.), 899
Circumscribed intraventricular hematoma in infants (Murtagh and Baird), 351
Clinical pathological conference: Cystic fibrosis, severe hypoproteinemia, anemia and edema, and exfoliative dermatosis, 451
Hashimoto's disease and hyperplasia, 777
Idiopathic pulmonary hemosiderosis, 616
Myositis ossificans or osteogenic sarcoma, 138
Clinical significance, physiology and, of haptoglobin (Kauder and Mauer), 286
Cobalt, thyroid enlargement probably induced by (Chamberlain), 81

Comments on current literature: Chromosomes in chronic myeloid leukemia and in acute leukemia associated with Mongolism (Blattner), 145
Heterozygous carriers in Wilson's disease (Blattner), 460
Latent virus infection: recurrent herpes simplex (Blattner), 784
Phenylketonuria: phenylpyruvic aciduria (Blattner), 294
Syphilis is still a problem (Blattner), 625
Conduction, defective intraventricular, in 7-month-old infant, repetitive paroxysmal auricular tachycardia with (Vakil, Arora, and Joshi), 384
Congenital abnormalities of urinary system. II (Bernstein and Meyer), 657
bile duct stenosis (Hardy), 265
hemangioma with thrombocytopenia (James and Tuttle), 234
malformation, cyanotic and acyanotic, of heart, birth weight of infants with (Mehrizi and Drash), 715
megacolon (Hirschsprung's disease) associated with hypoproteinemia and edema (Griffin), 394
Correspondence, 150, 301, 465, 630, 789
Corrosive injury of esophagus, evaluation of early esophagoscopy and corticosteroid therapy in, management of (Viscomi, Beekhuis, and Whitten), 356
Cortical hyperostosis, familial infantile (Gerrard et al.), 543
renal, and medullary necrosis. II (Bernstein and Meyer), 657
Corticosteroid therapy and early esophagoscopy in management of corrosive injury of esophagus (Viscomi, Beekhuis, and Whitten), 356
treatment for measles encephalitis (Ziegra), 322
Cow's milk proteins, allergenicity of. IV (Crawford and Grogan), 347
Craniosynostosis and hydrocephalus with circumscribed intraventricular hematoma (Murtagh and Baird), 351
Crime, origins of (editorial), 308
Cryptococcus meningitis in child successfully treated with amphotericin B (Emanuel et al.), 577
Cyanotic and acyanotic congenital malformations of heart, birth weight of infants with (Mehrizi and Drash), 715
Cyclopropane, induction of anesthesia with, cardiac rate and rhythm in infants during (Bachman and Freeman), 922
Cyst, adrenal (Barron and Emanuel), 592
Cystic fibrosis of pancreas, electron microscopic study of eccrine sweat glands in patients with (Munger, Brusilow, and Cooke), 497
flora of respiratory tract of patients with (Huang, Van Loon, and Sheng), 512
severe hypoproteinemia, anemia and edema, and exfoliative dermatosis (CPC), 451
submaxillary saliva in, studies (Chernick, Barbero, and Parkins), 890

D

Deaths, neonatal, among term infants associated with administration of chloramphenicol, outbreak of (Lischner et al.), 21
Defective intraventricular conduction in 7-month-old infant, repetitive paroxysmal auricular tachycardia with (Vakil, Arora, and Joshi), 384
Deficiency, protein, anemia associated with (Shahidi, Diamond, and Shwachman), 533
Delinquency, juvenile, zone between social acceptance and (Symposium) (Wolf), 747
Dental caries in children, selenium content of eggs, milk, and water in relation to (Hadjimarkos and Bonhorst), 256
Dermatosis, exfoliative, cystic fibrosis, severe hypoproteinemia, anemia and edema, and (CPC), 451
Diagnosis of neurogenic hyperthermia, plasma fibrinogen in (Kanof and Volk), 674
"Diaper rash," diagnostic anachronism (Kozinn, Taschdjian, and Burchall), 75
Diaphragm, accessory, associated with neonatal respiratory distress (Hashida and Sherman), 529
Dietary management of infants and young children, phenylketonuria. I (Centerwall et al.), 93
Differentiation, inheritance and, studies with virus infection (Cohen), 820
Disease, Hashimoto's, and hyperplasia (CPC), 777
Hirschsprung's, congenital megacolon, associated with hypoproteinemia and edema (Griffin), 394
Morquio-Ullrich's (Zellweger et al.), 549
pulmonary, recurrent, achalasia in children as cause of (Schultz), 522
rheumatoid, in juvenile patients (Kelsey), 227
Wilson's, heterozygous carriers in (Blattner), 460
Diseases, liver, and osteoporosis in children. I (Teng et al.), 684
II (Teng et al.), 703
tuberculosis and tuberculosis-like (editorial), 471
Dissociation of growth-stimulating and skeleton-maturing actions of synthetic androgen, fluoxymesterone (Reilly and Gordan), 188
Distemper and measles viruses, relationship between, prospects for measles immunization with reference to (Cabasso et al.), 324
Distress, neonatal respiratory, accessory diaphragm associated with (Hashida and Sherman), 529
Doctor and other factors in adolescents' health and illnesses (Symposium) (Gallagher), 752
Drugs, toxicity of, in neonatal period (Nyhan), 1
Duct, bile, stenosis, congenital (Hardy), 265
Dynamics, cardiovascular, related, and respiratory distress syndrome, electrocardiogram in (Keith et al.), 167
Dysgenesis, endocrine, cebocephaly with (Haworth, Medovy, and Lewis), 726
Dysplasia, punctate epiphyseal, another cause of leg length inequality (Wenzl, Ivins, and Stickler), 390

E

Eccrine sweat glands in patients with cystic fibrosis of pancreas, electron microscopic study of (Munger, Brusilow, and Cooke), 497

Edema and anemia, cystic fibrosis, severe hypoproteinemia, and exfoliative dermatosis (CPC), 451

and hypoproteinemia, congenital megacolon (Hirschsprung's disease) associated with (Griffin), 394

in paralytic poliomyelitis, evaluation of transaminase activity in (Abbassy and Aboulwafa), 60

Fluoxymesterone, synthetic androgen, dissociation of growth-stimulating and skeleton-maturing actions of (Reilly and Gordan), 188
Fractures, epiphyseal (Nicholson and Nixon), 939
Fungal and bacterial chorioamnionitis, viral placentitis, early neonatal infection (Blanc), 473

G

Galactosemia, variability in clinical manifestations (Hsia and Walker), 872
Glands, eccrine sweat, in patients with cystic fibrosis of pancreas, electron microscopic study of (Munger, Brusilow, and Cooke), 497
Glucose, blood, ketones, and plasma nonesterified fatty acids, response to fasting and epinephrine injection (Kaye et al.), 836
Goat's milk protein as studied by serum-agar precipitation. IV (Crawford and Grogan), 347
Gram-negative bacilli, rare (Mima polymorpha and Bacillus anitratum) severe infections in children due to (de Torregrosa and Ortiz), 35
Growth of human brain, physiologic characteristics of (Kennedy), 928
  personality, variations in, during adolescence (Symposium) (Wolf), 743
Growth-stimulating and skeleton-maturing actions of synthetic androgen, fluoxymesterone, dissociation of (Reilly and Gordan), 188

H

Haptoglobin, physiology and clinical significance of (Kauder and Mauer), 286
Hashimoto's disease and hyperplasia (CPC), 777
Head injuries in children, subepicranial hydroma (Epstein, Epstein, and Small), 562
Health, adolescents', and illnesses, doctor and other factors in (Symposium) (Gallagher), 752
Heart, birth weight of infants with cyanotic and acyanotic congenital malformations of (Mehrizi and Drash), 715
Height, relation of lung volume to, in healthy persons between ages 5 and 38 years (Cook and Hamann), 710
  secular acceleration of, and biologic maturation in children during past century (Symposium) (Cone), 736
Hemangioma, congenital, with thrombocytopenia (James and Tuttle), 234
  with thrombocytopenia in newborn infant treated by total excision (Inglefield, Tisdale, and Fairchild), 238
Hemangiomas, radiation therapy of (editorial), 311
  of small bowel in children (Copple and Kingsbury), 243
Hematoma, circumscribed intraventricular, in infants (Murtagh and Baird), 351
Hemoglobinopathies with particular reference to thalassemia, some remarks on (Jonxis), 765
Hemosiderosis, idiopathic pulmonary (CPC), 616
Hernias, infantile umbilical, treated with navel emplastra (Karlström), 87
Herpes simplex, recurrent, latent virus infection (Blattner), 784
Heterozygous carriers in Wilson's disease (Blattner), 460
Hirschsprung's disease, congenital megacolon, associated with hypoproteinemia and edema (Griffin), 394
Histoplasmosis in African child (Lanceley, Lunn, and Wilson), 756
Hospital admission procedure designed as model for training residents in patient care (Cecil, Bridgers, and Harrington), 958
Human brain, physiologic characteristics of growth of (Kennedy), 928
Hydrocephalus, secondary, and circumscribed intraventricular hematoma in infants (Murtagh and Baird), 351
Hydrogen ions, renal excretion: defense against acidosis in premature infants (Rubin, Calcagno, and Ruben), 848
Hydroma, subepicranial (Epstein, Epstein, and Small), 562
Hyperlipemia, hypokalemia, and tetany, further investigations of lipid metabolism in patient with (Turner and Cheek), 208
  investigation of patient with (Cheek, Robinson, and Collins), 200
Hyperostosis, familial infantile cortical (Gerrard et al.), 543
Hyperplasia and Hashimoto's disease (CPC), 777
Hypersensitivity to para-aminosalicylic acid in child (Kneebone), 90
Hyperthermia, neurogenic, plasma fibrinogen in diagnosis of (Kanof and Volk), 674
Hypervitaminosis, acute and chronic, in 4-month-old infant (Woodard, Miller, and Legant), 260
Hypoglycemia with inability to increase epinephrine secretion in insulin-induced hypoglycemia (Broberger and Zetterström), 215
  insulin-induced, hypoglycemia with inability to increase epinephrine secretion in (Broberger and Zetterström), 215
Hypokalemia, hyperlipemia, and tetany, further investigations of lipid metabolism in patient with (Turner and Cheek), 208
  investigation of patient with (Cheek, Robinson, and Collins), 200
Hypoproteinemia and edema, congenital megacolon (Hirschsprung's disease) associated with (Griffin), 394
